INDIAN WAR VETERANS WANT RECOGNITION.

The committee of Utah Indian war veterans, consisting of J. M. Westwood, chairman, Utah county; John G. Davis, Uintah county; Vergil Kelly, Millard county; R. N. Bennett, Sanpete county; Edwin Booth, Juab county; Mons Monson, Sevier county, and M. L. Pratt, secretary, Utah county, has made the following report to their comrades:

Headquarters Utah Indiar War Veterans, Springville, Utah, Dec. 20, 1905.—We, your committee, beg leave to report that at a meeting held at Provo city on Dec. 16, 1905, the following petition was signed and a copy sent to each of our representatives in Congress:

We, the committee appointed by the Utah Indian War Veterans, at our last campfire, held at Payson, Utah, on the 18th, 19th, 20th and 21st of August, 1905, at which gathering there were present representatives from nearly every county in the State of Utah, to confer with our congressional delegates on the subject of "pensions" to the veterans of the Black Hawk war of Utah.

Gentlemen, we earnestly desire you to present our claims, and urge upon Congress the justness of our cause.

Forty years ago we had on our hands in the then territory of Utah, a vexatious and bloody Indian war, extending over Sevier, Piute, Sanpete, Utah, Wasatch, Millard, Beaver, Iron, Washington and Kane counties rendering a strong military force constantly necessary in the field during the years 1865, 1866 and 1867. At the beginning of hostilities, Colonel Irish, then superintendent of Indian affairs, called on General Connor to protect the settlements of the territory from Indian depredations. Being refused aid from that direction, Colonel Potter was next appealed to for aid and protection. Colonel Potter sent east for instructions and received answer from General Sherman that we must rely on the militia of the territory, consequently the militia being called out by federal authority, we, old veterans of the war, responded, and in this war we furnished our own arms, ammunition, transportation, cavalry horses, and equipments. (See adjutant general's report to Hon. John M. Schofield, secretary of war.)

Accompanying this report was the following:

Executive office, Salt Lake City, Utah Territory, Jan. 9, 1869.—I, Charles Durkee, governor of the Territory of Utah, do hereby certify that the military service rendered by the militia of this territory composed in the foregoing accounts, was absolutely necessary, and was therefore sanctoned and authorized by me at the times specified, and that the accounts are just.

CHARLES DURKEE,
Governor.

We have never received a dollar, nor any other consideration for our service from the government of the United States, or the Territory of Utah. But the Legislature of the State of Utah has recognized our services by appropriating means for medals of honor. We, who were young men 40 years ago, now, with our wives, sons and daughters, form no inconsiderable portion of the general interests of this country, not omitting the duty of voting, as we and those directly interested in our welfare represent 12,000 to 15,000 votes in the state.

Now, we ask that you will kindly make an extra effort to get the provisions of the act of July 27, 1892, as amended by the act of June 27, 1902, so extended that it will include the Indian wars of Utah from 1853 to 1880, inclusive.

We are growing old in years. Many of our comrades have answered to the muster on the other side.

We understand all the Indian wars of the United States have received recognition by the government, excepting the Black Hawk war of Utah. We place our request in your hands, feeling that our cause is just, and hope that you may succeed in procuring for us, after these many years, that which to us would in a measure compensate us for placing our lives on our country's alter, a pension.
